*Livable Luxury*

*Inspired by  
The Beauty of Nature*

We travel the world to seek out the beautiful woods and stones that inspire our luxury vinyl flooring. In the hands of our talented design team, those woods and stones are used to craft flooring of different colors, textures and character, providing stylish options for a variety of interior design aesthetics.

**Every Karndean design is an original, each as unique as the space you're creating.**

**LIVABLE  
LUXURY**

The Art Select collection allows you to bring the opulent look of luxurious natural materials into your home – from Italian marble to the semi-precious gemstone onyx. Beautifully replicated as Karndean luxury vinyl with a top-of-the-line 30 mil wear layer, you can achieve these extraordinary looks while enjoying the everyday practicality of flooring that's waterproof, scratch-resistant and easy to clean.

*Inspired by Kent Ash*

Part of the olive family, ash is an ancient species traditionally used to make tool handles and chair frames. The source timber for our Kent Ash designs – named for Kent Downs, a scenic conservation area in the United Kingdom – provided strong tonal contrast.

The woods and stones that inspire Karndean designs are sourced from around the world – forests and lumberyards to remote mountain quarries. In the skilled hands of the Karndean design team, the natural characteristics of the source materials are replicated and enhanced, capturing the distinctive grains, textures and markings of the original wood and stone.

## Karndean Craftsmanship

A hand-etched emboss precisely traces the grain of the source timber, giving the design an ultra-realistic look and feel, while a deep rounded bevel accentuates the character of the individual planks.

Stone-inspired designs feature a matte finish to minimize reflection, as well as a deep rounded bevel. Together, they highlight the beauty of each individual tile in any lighting conditions.

## Make a Statement With Bold Designs

Karndean Art Select can be cut and laid to create striking patterns with both gluedown and rigid core formats. Share these ideas with your retailer or installer to explore the possibilities. Gluedown | Rigid Core

	Herringbone*	Chevron	Broken Chevron	Staggered
	Diagonal with Border	Striped (2-color)	Block	
	Brick Lay	Diagonal	Herringbone	Striped (2-color)
		Striped (Wood and Stone)	Wood Frame with Stone Inset	

\*Design available in accent plank rigid only

## Warm

Flooring in warm tones works well for a timeless design approach. Brownish hues can be used to create a welcoming ambience in your home.

**Color & Pattern Reproduction**

Because of the printing process, photography may not represent our products with exact precision. In addition, the wood and stone materials replicated in our flooring designs feature unique variation that may not always be captured in a single image. We strongly recommend seeing product samples before placing an order.

To order free samples, go to the page of the product you like at [karndean.com](http://karndean.com) and click the "Order Sample" box.
